

HOW TO REGISTER YOUR HORSE

Basic Naming Rules:

Purebreds:

Stallions and colts: Carry a double name, the first being the lineage name of sire and the second being that of the dam. (Example: PLUTO MORA).

Mares and fillies: Mare/filly names traditionally end in "a" with a maximum length of 28 characters.

Partbreds: Can be up to 38 characters in length, including spaces. No stallion line names or classic or subsidiary mare family names can be used. Mares names should not end in "a".

FOR: TRANSFER OF OWNERSHIP OF A HORSE

Transfer of Horse (already registered with LANA)

3. Credit Card/Check Made Payable to LANA
4. DNA (Form 2)
5. Hair sample (with root bulb attached)
6. Check Made Payable to University of Kentucky in the amount of \$29

Regarding DNA requirement:

DNA Identification Requirement: All horses must be DNA'd simultaneously with registration and the Registrar must receive notification from the University of Kentucky before a registration certificate is issued. In the event a horse is transferred, but no DNA is on file, the new owner will be responsible for submitting the DNA paperwork and fee to the University of Kentucky before a new registration certificate is issued. DNA numbers appear on registration pedigrees. We suggest you use at least 18 hairs with follicle bulbs in your sample.

TRANSPORTED SEMEN FORMS:

Form 1: Collection/Insemination Certificate. This form is to be used for cooled transported semen or

frozen semen.

Stallion Owner/Agent complete form and forward with container as follows:

- a. One complete copy to Mare Owner; and
- b. Retain one copy for records.

Mare Owner/Agent complete form and forward as follows:

- a. One complete copy to Stallion Owner;
- b. Retain one copy for records; and
- c. Forward one complete copy to LANA registrar within 15 days of insemination.

Form 2: Breeder's Certificate: Transported Semen/Embryo Transplant. This form is to be used for mares bred with cooled, transported semen or frozen semen and/or embryo transplant:

Stallion Owner/Agent complete form and forward with container as follows:

- a. One complete copy to Mare Owner; and
- b. Retain one copy for records.

Mare Owner/Agent (Mare/Donar Mare Info) complete form and forward as follows:

- a. One complete copy to Recipient Mare Owner;
- b. Retain copy copies for records.

Mare Owner/Agent (Recipient Mare Owner/Lessee Info) complete form and forward as follows:

- a. Two complete copies to Stallion Owner;
- b. Retain two copies for records; and
- c. Attach one completed copy to Registration Application for resulting foal.

COMMON REGISTRATION DELAYS & REMEDIES

Registering Imported Horses: Pedigrees on imported horse may not possess a 5 generations pedigree, including dates and places of birth of all ancestors. In this instance, the Registrar must contact the Lipizzan International Federation or the studfarm to obtain the missing information. It can take up to 6 months or more before the information is received. Should this be the case, the Registrar will notify you of the delay.

Transfers When the Horse Has Not Been DNA'd: In the event a horse is transferred, but no DNA is on file, the new owner will be responsible for submitting the DNA paperwork and fee to the University of Kentucky before a new registration certificate is issued. DNA numbers appear on registration pedigrees. If DNA numbers are needed for a sire and dam to complete the DNA forms, contact registration@lipizzan.org to obtain the DNA numbers for parent verification. If you are transferring a horse from another registry, the DNA information has to be verified first which may cause a short delay.

**No DNA
No Fees**

STALLION REPORTS

A Stallion Report must be submitted for all stallions over the age of 5, **regardless of whether the horse was bred the previous calendar year**. The Stallion Report is due by January 15 of each year. A late fee will be assessed if the report is not received by January 15.
